ABOUT THE WORLD

Tinker Town is a strange place. Nestled in a shady tree filled valley between airy mountain peaks and by the banks of a wide and lazy river the village is home to a unique gathering of people and...well...things. It's not unusual on any given day to walk the cobblestone lanes and see a flower chatting to a robot, or a walking marble statue playing with thirteen hotcross buns. How or why this is possible is down to five amazing people. Paddy and his pals. All of which posses a special gift. To magically bring to life anything they make.

SAMPLE SPRINGBOARDS

NEW FRIENDS ARE EASY TO BAKE

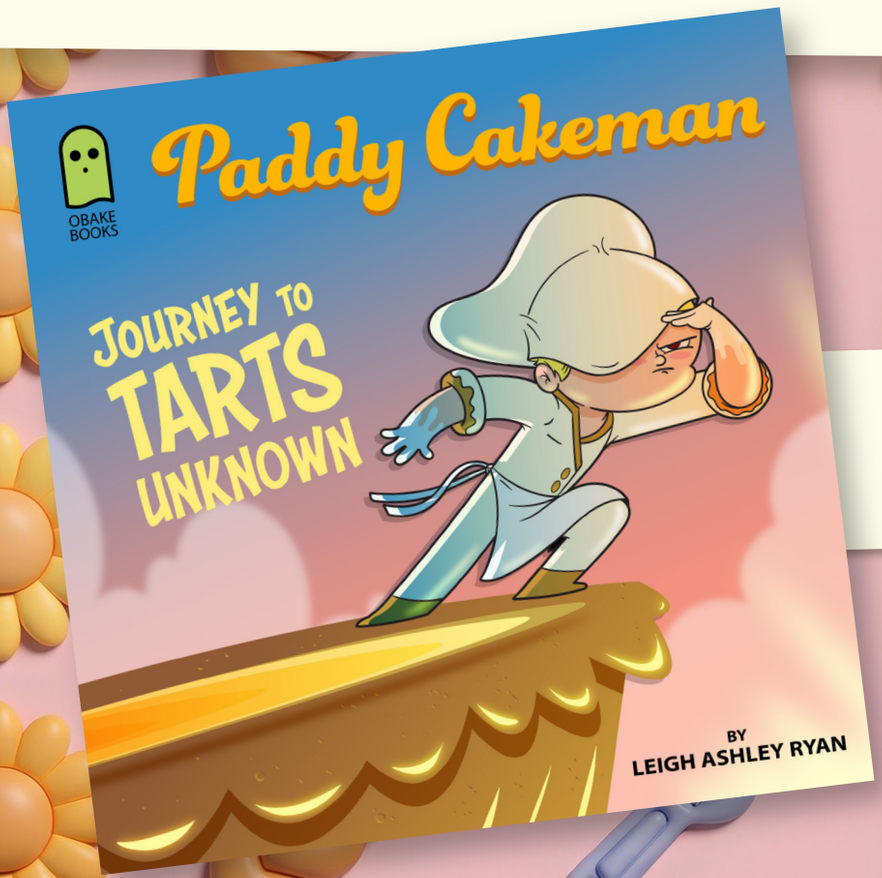

Someone new has arrived in Tinker Town and his way of doing things is VERY different from Paddy. He loves all things mechanical and high tech and believes that his way is the way of the future, espeically when it comes to baking. Paddy's friends Arlo, Evie and Rosie help teach both Paddy and Cogs that just because somehting is new or different it doesn't have to be scary and that there is a place for everyone's ideas in Tinker Town.

JOURNEY TO TARTS UNKNOWN

Paddy accidently makes a tart so big that he gets lost inside of it. Now with the help of his favourite pet cat Mewslie he must travel through this new and gooey landscape to find his way home, but it might not be so easy, because time moves differently inside magic tarts and life has stated to evolve and before he can esacpe Paddy must face the sloppy goblin king of the mighty Crumblings!

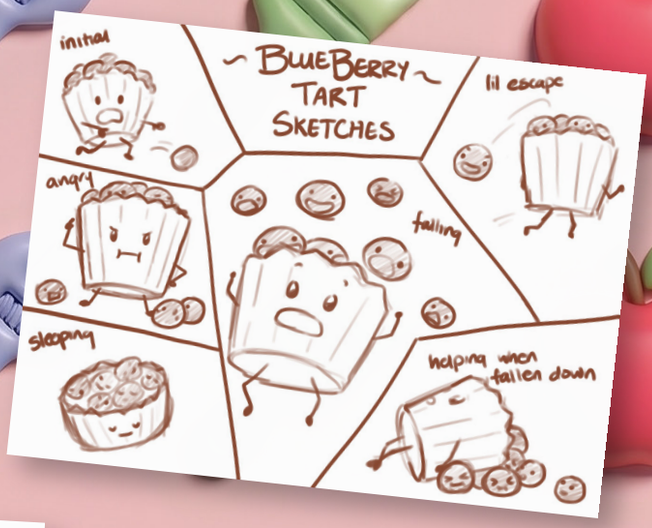

MATTERS OF THE ART

Evee wakes up one morning to find her artistic spark entirely vanished, unable to touch pen, brush, or chisel. Despite trying every new method imaginable, her creative well remains stubbornly dry. Just as she nears the brink of giving up, Arlo invites her to spend a day in his lush vegetable garden. Working side by side planting and watering, Eevee feels a sudden, unexpected wave of fresh inspiration. She realizes that stepping away from the easel and embracing nature is sometimes the ultimate way to create.
